

The Health Insurance Industry in India is the fastest growing segment and is projected to grow at a CAGR of 21% till 2025. The growth will be fuelled by both demand and supply, where demand will be driven by a growing middle class, young insurable population and an increasing awareness of the need for protection. Further, the increase in products, insurers and intermediaries operating in this space will drive the supply.

There are, however, gaps in the areas of digitisation, financing, technology and fraud control that hold the industry back. These gaps can be addressed through innovative ideas, which can remove roadblocks pertaining to penetration and can help the industry to grow rapidly.

Keeping these imperatives in mind, the FICCI Virtual Health Insurance Conference on the theme "INNOVATION FOR BRIDGING THE GAP" will focus on bridging the identified industry gaps through innovation. The outcome of this effort will be an increase in TRUST, AFFORDABILITY & **ACCESSIBILITY.** The conference will also showcase a curated set of start-ups that are working to address these gaps with solutions that could potentially be game changers.

Conference **Sessions**

Inaugural Session

OPD Financing for Out-of-pocket

Technology for Claim Settlement

Fraud and Risk Mitigation to Improve **Affordability**

Established in 1927, FICCI is the largest and oldest apex business organisation in India. Its history is closely interwoven with India's struggle for independence, its industrialization, and its emergence as one of the most rapidly growing global economies.

A non-government, not-for-profit organisation, FICCI is the voice of India's business and industry. From influencing policy to encouraging debate, engaging with policy makers and civil society, FICCI articulates the views and concerns of industry. It serves its members from the Indian private and public corporate sectors and multinational companies, drawing its strength from diverse regional chambers of commerce and industry across states, reaching out to over 2,50,000 companies.

> The chamber with its presence in 14 states and 10 countries, provides a platform for networking and consensus building within and across sectors and is the first port of call for Indian industry, policy makers and the international business community.
